

Greenville County Bird Club Trip Report

Date: January 14, 2006

Location: Lakes of Northern Greenville County, SC

Comments: If you love cutting, cold, 40+ mph winds, then you would have enjoyed spending the morning with us "Wingnuts." We had 40 species including the Greater White-fronted Goose look alike (Graylag).

The group included new club member, Lowery Glasgow, Hilda Reese, Jane Kramer, Pete Worthington and me. We had a good day except for the wind.
